

Metal Lath and Mesh

Range of expanded metal sheets and coils for internal and external plaster key applications and anti-crack control.

Locusrite Corner and Strip Mesh Lath

Description and Application

Locusrite Corner Mesh Lath is produced for use on internal and external corners in order to prevent cracking in the plaster.

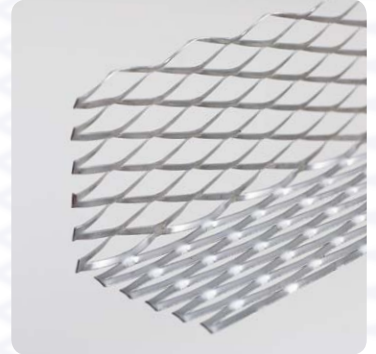

Locusrite Strip Mesh Lath is produced for use along stress lines where cracking is likely to occur.

Specification

All galvanised materials are manufactured from steel to DX51.BSEN 10142 (g 275).

Stainless steel materials are manufactured from steel to EN 10088-2 grade 1.4301 (standard supersedes BS1449 Part 2: 1983 grade 304 S15).

Manufactured in accordance with BS1369 Part 1: 1987.

Code	Description	Material	Size (mm)
GCM100	Corner Mesh	Galvanised Steel	2500 x 100
GCM175	Corner Mesh	Galvanised Steel	2500 x 175
SSCM100	Corner Mesh	Stainless Steel	2500 x 100
GSM100	Strip Mesh	Galvanised Steel	2500 x 100
GSM175	Strip Mesh	Galvanised Steel	2500 x 175
SSSM100	Strip Mesh	Stainless Steel	2500 x 100
