A great new way to keep your wall ties in order

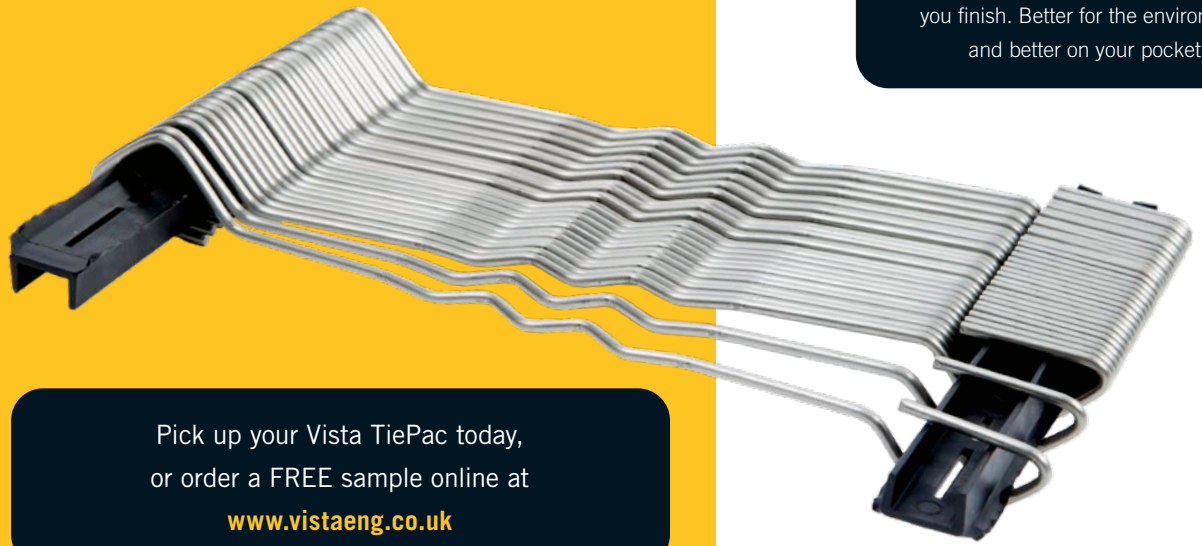
The trouble with wall ties is they love to go AWOL. Over the side of the scaffold. Down into the bottom of the cavity. Wherever they can to make your life difficult.

That's why we've come up with a new way to keep our wall ties together in one place.

With TiePac, block laying is faster because all your ties are right there where you need them. Just pull one off the TiePac and push it into your mortar bed every time you tie in. Simple.

It saves you money too, because you can move on to the next job sooner. And you don't have to pay for all those ties that end up anywhere but where they should be.

Plus, if you don't use all your ties in one go, you can pop them back in the box, ready for next time.



Pick up your Vista TiePac today,
or order a FREE sample online at

Faster, easier, tidier wall ties from Vista

LESS WASTE
More ties go into the wall, instead of into the ground or down inside the cavity. Meaning better value for you.

FASTER BLOCKLAYING
No need to pick out ties from a loose pile. Just pluck and place your ties as you go along. Easy.

TIDIER SITE
Less mess on site to clear up when you finish. Better for the environment and better on your pocket.

LESS WASTE IN THE PALM OF YOUR HAND
